TECHNICAL SPECIFICATION

TOILET BASE PLATE

TECHNICAL SPECIFICATION: Oatey Toilet Base Plate is a stain concealing system which gives a finished look to a new toilet installation. Toilet Base Plates can be used to hide unsightly rings around the toilet base from larger base toilets. The plate is non-corrosive, provides a clean, professional look and easily installs. Toilet Base Plates may be stacked by using the aligning pegs molded into the plate. By stacking the plates you may overcome the problem of a toilet that rocks on a hub that has been set too high. Toilet Base Plates are available in square and round nose styles.

PHYSICAL/CHEMICAL PROPERTIES

Material

Color White

DIRECTIONS FOR USE

Shut off water supply. Remove water supply line to water tank of old toilet. Unbolt toilet at base and remove toilet carefully. Clean floor and level surface if necessary with patching material. Apply a bead of adhesive around the bottom of the Toilet Base Plate approximately 1" from edge. Position Toilet Base Plate on floor surface using aligning holes to help align plate for straight toilet installation. Mount new toilet per manufacturer's instructions. Toilet Base Plates may be stacked by using the aligning pegs molded into the plate.

PRECAUTIONS

Clean Toilet Base Plate with mild soap and water only. Do not use solvent based cleaners.

Read cautions and directions on packaging carefully before using this product. KEEP OUT OF REACH OF CHILDREN.

COMMON APPLICATIONS

Oatey Toilet Base Plates are designed to conceal flooring stains that are present after removing and replacing toilet. Round and square nose styles accommodate most toilet installations.
